

A close-up photograph of an elephant's face, showing its thick, wrinkled skin and a large eye. A white, semi-transparent text box is overlaid on the right side of the image. The text box contains the brand name 'ENERGY' with a red drop icon, the product name 'AUDIVET' in large red letters, and the description 'VETERINARY PRODUCT - DROPS' in smaller black letters. A faint red geometric pattern is visible in the background of the text box.

NATURAL
PRODUCTS

AUDIVET

Herbal product for external use. Its composition prevents the growth of unwanted bacteria, fungi and parasites. It adjusts the pH of the skin and mucous membranes. It has a significant effect on inflammatory conditions affecting mucous membranes and the skin, including the external ear canal. It has antiviral, antibacterial and antifungal effects.

USE

(The most suitable auxiliary product for better effect is indicated in brackets)

- » Rashes, eczema, superficial wounds (**Regavet, Gynevet, Kingvet**).
- » Skin fungal infections, circular alopecia (local hair loss) (**Gynevet**).
- » Warts and small tumours of the skin and mucous membranes (**Virovet, Imunovet**).
- » Skin itching and soreness (**Regavet, Fytovet**).
- » Insect bites (**Imunovet**).
- » Inflammation of the external ear canal (**Cytovet, Imunovet, Regavet, Renovet**).

- 
- » Fungal infections of the mucous membranes of the genital organs (for rinsing, it must be diluted) (**Gynevet, Imunovet**).
 - » Diseases of the gums (epulis, gingivitis) (**Imunovet**).
 - » Pain relief in inflammations of small joints (**Regavet, Kingvet**).
 - » Inflammation of the mammary glands (**Imunovet, Virovet, Kingvet**).

INGREDIENTS

Extractum Herbarum (Aesculus Hippocastanum Flower Extract, Geranium Robertianum Extract, Plantago Lanceolata Leaf Extract, Symphytum Officinale Root Extract, Eupatorium

Cannabinum Extract, Tropaeolum Majus Extract, Sanguisorba Officinalis Root Extract, Acetum), PEG- 40 Hydrogenated Castor Oil, Commiphora Myrrha Oil, Pelargonium Graveolens Oil, Tocopheryl Acetate, Commiphora Myrrha Resin Extract.

RECOMMENDED DOSAGE

Rub the affected area with 1–3 drops of the solution 2–3 times a day. If ears are affected, drip 1–3 drops on a cotton bud and wipe the affected ear canal twice daily. After three weeks of use, take a one-week break.

RECOMMENDATIONS

For precise targeting of the regeneration, we recommend seeking professional advice from our consultants or Use within three months of opening.

WARNING

When applied to damaged skin, it stings. When inflammation of the ear canal occurs, only clean and wipe, not drip – the ear canal must remain dry. Do not apply to the eye!

VOLUME

30 ml

Recommendation from a veterinarian

I find **Audivet** very important for external treatment of local alopecia (hair loss), fungal skin infections, skin eczema and warts. It can also be advantageously used for superficial skin injuries.
