NATURAL
PRODUCTS

EPIVET

atural shampoo with repellent effect for routine coat maintenance of all types of animals. Non-irritating, non-toxic, pH neutral, with a soothing effect even for sensitive skin. It smells good. The repellent effect is due to apple cider vinegar and a mixture of essential oils of rosemary, thyme and others, which bind to the residual fat of the skin and coat.

USE

(The most suitable auxiliary product for better effect is indicated in brackets)

- » Routine coat maintenance. It creates a velvety sheen of the coat and makes it stronger (**Gynevét**).
- » For sensitive and irritated skin (**Regavet**, **Renovet**).
- » Skin inflammation (**Regavet**, **Renovet**, **Audivet**).
- » For extreme blood-sucking insect infestation (especially mosquito invasion) (**Gynevét**).
- » A repellent against ticks, lice and chewing lice (**Gynevét**).

INGREDIENTS

Aqua, Decyl Glucoside, Acetic Acid (Apple Cider Vinegar), Cocamidopropyl Betaine,

Disocidum Cocoamphodiacetate, Extractum Herbarum (Pulmonaria Officinalis Extract, Rosa Centifolia Flower Extract, Cinchona Calisaya Bark Extract, Sophora Japonica Fruit Extract, Verbascum Thapsus Extract, Zingiber Officinale Root Extract, Cetraria Islandica Extract, Tussilago Farfara Flower Extract, Galeopsis Segetum Extract, Glycyrrhiza Glabra Root Extract, Hyssopus Officinalis Herb Extract, Thymus Vulgaris Extract, Aralia Cordata Extract, Curcuma Longa Root Extract, Equisetum Arvense Extract, Origanum Vulgare Extract, Plantago Lanceolata Leaf Extract, Tropaeolum Majus Seed Extract, Althaea Rosea Flower Extract), Parfum, Xylitol, Xanthan Gum, Cellulose Gum,

Hydroxyethyl Urea, Geraniol, D-limonene, Linalool, Citronellol.

RECOMMENDED DOSAGE

Apply little amount of shampoo to wet hair and rub well into it. Leave on for about two minutes and then rinse thoroughly with water.

If the shampoo does not foam enough, the coat is too oily. In that case, you should repeat the process.

RECOMMENDATIONS

Use within three months of opening.

WARNING

Immediately after washing the coat is too firm, only the next day

getting in show condition. It does not destroy external parasites, only prevents their invasion for up to 14 days. The shampoo needs to be washed off well. In case of accidental entry into the eye, the eye should be rinsed. Keep out of the reach of children!

VOLUME

200 ml

Recommendation from a veterinarian

Epivet has found a permanent place among my favorite Energy products. It can be used safely in dogs with hypersensitive or inflamed skin. A huge advantage is its repellent effect.
