ETOVET

VETERINARY PRODUCT - DROPS

FOR ALL
ANIMALS

RECOMMENDED
BY VETERINARIANS

NATURAL
PRODUCTS

ETOVET

Natural herbal concentrate. It harmonises psychological functions, suitable for treatment of behavioural problems. It improves the animal's ability to concentrate and learn. It increases endurance and maintains energy balance. It supports digestion and the use of nutrients and energy from food.

USE

(The most suitable auxiliary product for better effect is indicated in brackets)

- » Animal behavioural problems (any concentrate from **The Five Element Regeneration®**).
- » Hyperactivity and lack of concentration.
- » Correction of inappropriate patterns and habits (appropriate behavioural patterns must be offered).
- » Increasing resistance to stress – traveling, visiting a veterinary clinic, arrival of a new animal (**Korovet, Gynevet**).
- » Acceleration of recovery, reduction of fatigue (**Fytovet**).
- » Supporting the ability to learn (storing in permanent memory) (**Omegavet**).
- » Increasing the endurance of the animal (training, preparation for

- 
- performance) (**Fytovet, Kingvet**).
- » Strengthening the effect of other concentrates on the animal's psyche (any concentrate from **The Five Element Regeneration®**).
 - » Digestive disorders (bloating, abdominal pain, chronic diarrhoea) (**Regavet, Probiovet**).
 - » Epilepsy (**Korovet, Fytovet**).
 - » Anxious care of the mother for the puppies (**Virovet**).
 - » Manifested false pregnancy (especially the psychological component) (**Virovet**).
 - » Conditions after removal of the spleen – splenectomy (**Imunovet**).
 - » Bleeding conditions, formations of haematomas (**Imunovet**).

INGREDIENTS

herbal extract 82.6% (Sedum roseum, Artemisia pontica, Ginkgo

biloba, Origanum vulgare, Aralia mandshurica, Foeniculum vulgare, Scutellaria baicalensis, Acorus calamus, Leuzea carthamoides, Schisandra chinensis, Cinnamomum zeylanicum), sorbitol – thickener, cellulose thickener, water, xanthan thickener, potassium sorbate preservative, mixture of essential oils 0.12%, grapefruit extract <0.0001%. The product contains a homeopathic polycomponent that enhances its effect through synergistic action.

RECOMMENDED DOSAGE

Small animals up to 10 kg:

2 drops twice daily;

Animals from 10 kg up to 100 kg:

1 drop for every 10 kg of weight twice daily;

Animals over 100 kg:

5 drops (0.3 mL) for every 100 kg

of weight twice daily.

After three weeks of use, take a one-week break.

RECOMMENDATIONS

For precise targeting of the regeneration, we recommend seeking professional advice from our consultants or the online veterinary advice at www.vet.energy. Use within three months of opening.

WARNING

Not suitable for pregnant females.

VOLUME

30 ml

Recommendation from a veterinarian

I use **Etovet** for behavioural problems in cats and dogs. In epileptiform convulsions and restlessness in combination with Fytovet. In the treatment of hypothyroidism in combination with typical medication, Gynevet and Fytovet. We also achieve good results treating false pregnancy in female dogs. The effect is also obtained in the treatment of parrots, which very often develop feather-picking syndrome.
