FYTOVET

VETERINARY PRODUCT - DROPS

FOR ALL
ANIMALS

RECOMMENDED
BY VETERINARIANS

NATURAL
PRODUCTS

FYTOVET

A mineral supplement of natural origin for animals. It contains a highly bioavailable colloidal solution of more than 64 elements in natural form, with an absorption rate of up to 98%. It does not burden the body with excess minerals. If the colloidal minerals are not used, they are easily eliminated from the body. It is suitable for daily use. Universal for all animal species.

USE

- (The most suitable auxiliary product for better effect is indicated in brackets)
- » A source of colloidal minerals, with almost 100% usability.
 - » Maintaining mineral and electrolyte balance (**Renovet**).
 - » Replenishment of deficient macro and micro elements.
 - » Activation of most of the body's enzymes (**Regavet**).
 - » Reduction of fatigue (**Regavet**, **Etovet**).
 - » Recommended for all chronic diseases.
 - » Diseases of the digestive tract which prevent the absorption of

- minerals (**Regavet**).
- » Hormonal system disorders (diabetes, thyroid disorders) (**Regavet, Gynevet**).
- » As an auxiliary treatment for poisoning (**Regavet, Cytovet**).
- » Skin problems (**Gynevet**).
- » Anti-itch product
 - concentrated, external use (**Regavet, Audivet**).
- » Superficial skin injuries and burns (**Imunovet**).
- » Bird moulting (**Gynevet**).
- » Reptile moulting (**Gynevet**).

INGREDIENTS

100% mineral water (colloidal solution).

RECOMMENDED DOSAGE

For all kinds of animals, regardless of weight, 5–20 drops per 1 liter of water used for drinking. It can also be added to the feed. For fish, amphibians and aquatic reptiles, add 5 drops per 1 liter of water used for bathing for 1 to 2 hours. After three weeks of use, take a one-week break.

RECOMMENDATIONS

When administered in drinking water, start with a low concentration of solution and gradually increase. For precise targeting of the regeneration, we recommend seeking professional

advice from our consultants or the online veterinary advice at www.vet.energy. Use within three months of opening.

WARNING

Do not exceed the recommended daily dose. Ensure sufficient water intake when using the product. Keep out of the reach of children! Shake well before use!

VOLUME

100 ml

Recommendation from a veterinarian

Mineral deficiencies in feed can cause a number of chronic diseases. I therefore recommend using **Fytovet** as a natural dietary supplement on a long-term basis. Supplementing missing minerals can be a solution to many problems in some sick animals. In combination with the main concentrates, Fytovet is a common and indispensable ingredient in my practice for kidney, heart, skin problems, epilepsy, diabetes, thyroid and other problems. It is also an excellent body activator in elderly animals.
