PRODUCTS

## GYNEVET

*Natural herbal concentrate acting on the organs and tissues of the Earth element in The Five Element Regeneration® concept. It gently works on the spleen, pancreas, stomach, hormonal and nervous systems and mammary glands. Thus, it harmonises the activity of these organs and their tissues. It influences the neurohumoral control in the body. Overall, it increases the body's resistance to stressful influences. It stimulates the activity of the lungs, colon and skin (Metal element). It reduces the hyperactivity of the heart, pericardium, vascular system and small intestine (Fire element).*

### USE

(The most suitable auxiliary product for better effect is indicated in brackets)

- » Adaptogen, adaptation to new conditions, stress (Etovet).
- » Harmonisation of the hormonal system (Fytovet, Omegavet).
- » Prevention of false pregnancy.
- » Promotion of the production and quality of breast milk (Skelevet, Fytovet).
- » Development of maternal instinct, sympathy, empathy (Etovet).
- » Reduction of stored fat (obesity, liver steatosis, atherosclerosis) (Omegavet).
- » Formation of new cells in virtually all tissues (Omegavet, Imunovet).
- » Stimulation of cellular immunity (Omegavet, Imunovet).
- » Regeneration of nervous tissue after trauma (Omegavet, Imunovet).
- » Restoration of articular

cartilage, formation of joint fluid (Skelevet).

- » Chronic skin diseases (hair loss, dry dull skin, eczema, dermatophyte fungal infection, demodicosis) (Omegavet).
- » Promotion of the replacement and recovery of hair, feathers, scales (Skelevet, Fytovet, Omegavet).
- » Production of tears, protective mucus of the respiratory tract and colon.
- » Facilitation of expectoration.
- » Constipation (dry stools) (Omegavet).
- » Increasing resistance to parasites (Epivet).
- » Prevention of stroke and myocardial infarction (Omegavet, Fytovet).
- » Heart disease due to increased activity (tachycardia, some arrhythmias) (Fytovet, Omegavet).
- » Female fertility disorders (disorders of the oestrous cycle, cysts) (Omegavet).

## INGREDIENTS

herbal extract 82.6% (Lamium album, Calendula officinalis, Fucus vesiculosus, Geranium obtertianum, Glycyrrhiza glabra, Imperatoria ostruthium, Potentilla anserina, Trifolium pratense, Galega officinalis, Galium verum, Robinia pseudoacacia, Alchemilla vulgaris, Foeniculum vulgare), sorbitol – thickener, cellulose thickener, water, xanthan thickener, potassium sorbate preservative, mixture of essential oils 0.12%, grapefruit extract <0.0001%. The product contains a homeopathic polycomponent that enhances its effect through synergistic action.

## RECOMMENDED DOSAGE

**Small animals up to 10 kg:**

2 drops twice daily;

**Animals from 10 kg up to 100 kg:**

1 drop for every 10 kg of weight twice daily;

## Animals over 100 kg:

5 drops (0.3 mL) for every 100 kg of weight twice daily. After three weeks of use, take a one week break.

## RECOMMENDATIONS

Regenerative product with a more gradual onset of action – longer-term administration is advisable. For precise targeting of the regeneration, we recommend seeking professional advice from our consultants or the online veterinary advice at [www.vet.energy](http://www.vet.energy). Use within three months of opening.

## WARNING

Do not administer in acute inflammation of the pancreas and stomach. Not suitable for pregnant females!

## VOLUME

30 ml

## Recommendation from a veterinarian

I use **Gynevét** with success in skin diseases accompanied by hair loss.  
It can be used, among other things, in the treatment of certain types of constipation,  
as a mucolytic agent, in the correction of tachycardia, degenerative liver diseases and  
to harmonize hormonal imbalances, especially in females.
