NATURAL
PRODUCTS

KINGVET

A natural herbal concentrate that supports motor functions and the healing processes of the body.

A natural anabolic agent. It supports the immune system, urinary tract and genital organs.

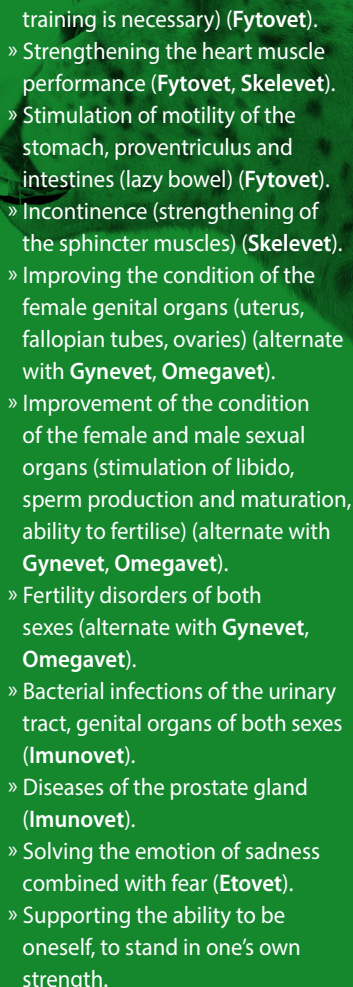

It stimulates the development and performance of skeletal, cardiac and abdominal muscles.

It suppresses hyperactivity of the lungs, bronchi, urinary and genital organs.

herbal extract 82.6% (*Smilax medica*, *Medicago sativa*, *Menyanthes trifoliata*, *Galeopsis segetum*, *Cnicus benedictus*, *Liriosma ovata*, *Schizandra chinensis*, *Zanthoxylum piperitum*, *Eryngium campestre*, *Codonopsis pilosula*, *Crataegus monogyna*, *Hibiscus sabdariffa*, *Hippophaë rhamnoides*, *Panax ginseng*, *Silybum marianum*), sorbitol – thickener, cellulose – thickener, water, xanthan – thickener, potassium sorbate – preservative, mixture of essential oils 0.12%, grapefruit extract <0.0001%.

The product contains a homeopathic polycomponent that enhances its effect through synergistic action.

RECOMMENDED DOSAGE

Small animals up to 10 kg:

2 drops twice daily;

Animals from 10 kg up to 100 kg:

1 drop twice daily for every 10 kg of weight;

Animals over 100 kg:

5 drops (0.3 mL) for every 100 kg

of weight twice daily. After three weeks of use, take a one-week break.

RECOMMENDATIONS

For precise targeting of the regeneration, we recommend seeking professional advice from our consultants or the online veterinary advice at www.vet.energy. Use within three months of opening.

WARNING

Caution and consultation with professional consultants is advised when using Kingvet for severe lung disease.

It is not advisable to administer concomitantly with Regavet or Renovet or without a break of at least one week between these products.

Not suitable for pregnant females.

VOLUME

30 ml

Recommendation from a veterinarian

I use **Kingvet** for faster recovery after surgeries. For chronic coughs, especially to suppress bacterial and viral infections. I also use it in older dogs with muscle atrophy, difficulty getting up – I start with Kingvet for two weeks and after a 14-day break, I re-initiate Kingvet for two or three weeks with a one-week break.
