# REGAVET

VETERINARY PRODUCT – DROPS

FOR ALL  
ANIMALS

RECOMMENDED  
BY VETERINARIANS

NATURAL  
PRODUCTS

## REGAVET

*A natural herbal concentrate acting on the organs and tissues of the Wood element in The Five Element Regeneration® concept. It gently works on the liver, gallbladder and connective tissue. Thus, it harmonises the activity of these organs and their tissues. Overall, it optimises the animal's metabolism. It stimulates the heart, vascular system and small intestine (Fire element). It reduces the hyperactivity of the kidneys, lymphatic system, bone tissue, urinary tract and genital organs (Water element).*

### USE

(The most suitable auxiliary product for better effect is indicated in brackets)

- » Initial product in animal regeneration.
- » Modification of energy and protein metabolism (**Probiovet, Fytovet**).
- » Promotion of the appetite (**Probiovet**).
- » Digestive problems (caution is necessary when liver and gall bladder disorders are present) (**Probiovet, Fytovet, Cytovet**).
- » Vomiting (**Fytovet**).
- » Insufficient production or activity of digestive enzymes (dyspepsia, EPI) (**Fytovet**).
- » Weight control (**Omegavet**).
- » Promotion of hormone production and activation (**Fytovet**).
- » Metabolic rejuvenation, elimination of fatigue (**Fytovet, Cytovet**).
- » Painful hair syndrome (**Fytovet**).
- » Itching (**Probiovet, Cytovet**).
- » Allergic diseases (alternate with **Renovetem**).

- » Detoxification, toxic burden of the body (vaccination, deworming, poor quality diet – additives) (**Cytovet, Probiovet**).
- » Organophosphate poisoning, organic poisons (**Cytovet**).
- » Heart insufficiency (degeneration of valves, enlarged heart, cough, weakness) (**Fytovet, Omegavet**).
- » Chronic renal failure associated with increased drinking and urination (**Probiovet, Omegavet**).
- » Inflammation of the urinary tract, prostate gland (**Imunovet**).
- » Acute inflammatory conditions in general (excluding liver and gallbladder) (**Imunovet**).
- » Arthritis, chronic joint pain (alternate with **Renovetem, Kingvetem**) (**Skelevet, Cytovet**).
- » Diseases of the connective tissues (**Skelevet**).
- » Eye diseases (conjunctivitis, cataracts).
- » Solid lesions (lipomas, benign tumours, masses, tumours) (**Cytovet, Imunovet**).

- » Relieving fear, anxiety and fear (**Etovet**).
- » Prevention of aggression (**Etovet**).

### **INGREDIENTS**

herbal extract 82.6% (Potentilla erecta, Taraxacum officinale, Plantago lanceolata, Veronica officinalis, Pimpinella saxifraga, Zanthoxylum piperitum, Artemisia abrotanum, Gentiana lutea, Marrubium vulgare, Agrimonia eupatoria, Galium verum, Saxifraga granulata), sorbitol – thickener, cellulose thickener, water, xanthan thickener, potassium sorbate preservative, mixture of essential oils 0.12%, silymarin 0.10%, grapefruit extract <0.0001%. The product contains a homeopathic polycomponent that enhances its effect through synergistic action.

### **RECOMMENDED DOSAGE**

**Small animals up to 10 kg:**  
2 drops twice daily;

### **Animals from 10 kg up to 100 kg:**

1 drop for every 10 kg of weight twice daily;

### **Animals over 100 kg:**

5 drops (0.3 mL) for every 100 kg of weight twice daily.

After three weeks of use, take a one-week break.

### **RECOMMENDATIONS**

For precise targeting of the regeneration, we recommend seeking professional advice from our consultants or the online veterinary advice at [www.vet.energy](http://www.vet.energy). Use within three months of opening.

### **WARNING**

Do not use in severe liver or gallbladder impairment. Do not administer concomitantly with Renovet or Kingvet (it is necessary to take a break of at least one week between products). Not suitable for pregnant females.

### **VOLUME**

30 ml

## Recommendation from a veterinarian

**Regavet** is excellent for digestive problems and metabolic disorders. It is very effective in renal failure, especially in carnivores. It also has an irreplaceable place in the therapy of allergic diseases (I alternate it with Renovet after 4 weeks).

**MVDr. Petr Hrabák**
