

balance water

- » soothe irritated and problematic skin
- » harmonization of the skin ph (skin microbiome)
- » stimulation and toning of tired skin
- » restoring skin balance

A toner in which the softness and high regenerative capacity of *Cistus ladanifer* hydrolate is supplemented and supported by *Citrus unshiu* extract. Delicately cleanses, tones, and effectively harmonizes the skin, restoring the balance of the skin microbiome. It provides relief from irritation, but also freshness and vitality. Balance Water does not contain essential oils to avoid possible irritation to sensitive skin.

ACTIONS AND EFFECTS

- » effective morning and evening cosmetic cleansing and treatment for all skin types, including sensitive skin or skin with a compromised skin barrier (second step after applying Visage Oil and before applying other products)
- » gentle skin toning and regeneration
- » deep skin soothing
- » the resulting effect is clean, toned, and soothed skin
- » natural ingredients with active hydrolate from *Cistus ladanifer* (gum rockrose) and the active ingredient Eosidin® – *Citrus unshiu* extract (satsuma mandarin)

BENEFITS OF THE LOTION

The concepts of lotion and toner are often discussed and confused in cosmetics. In the case of flower waters, however, we get the benefit of both (the effects of a lotion and toner in one): we beautifully cleanse the skin while balancing its pH, which is important for maintaining vitality and health. This is an important intermediate step between cleansing the skin and applying other products (thus enhancing their effect). Balance Water can be applied to makeup-free skin at any time of day to quickly soothe and harmonize it.

ACTIVE INGREDIENTS

HYDROLATE — CISTUS LADANIFER

Cistus ladanifer has been known since ancient times, especially in the Mediterranean, for its highly positive effects on skin and bodily health. It is also called the “gum rockrose” due to its beautiful fragrant white flowers. This cistus, growing in the wild on the sunny hills of Portugal, was specially chosen for Balance Water. The fragrance of the hydrolate is very specific thanks to the leaves that secrete the healing resin labdanum, which was used in traditional medicine and whose beneficial effects on the skin have been tried and tested for centuries. It is very suitable for sensitive skin prone to irritation, which it soothes, as well as for problematic skin, where it will help refine pores and eliminate inflammation. It will help restore firmness and elasticity in skin prone to

sagging. This hydrolate also acts as a hemostatic agent and can be used to heal minor facial injuries. Thanks to its low pH (suitable acidity), with regular use it effectively harmonizes the skin's natural acid mantle (hydrolipid film), which is essential for its balance and health. This effect can be compared to acid (AHA and BHA) peels. In the case of the hydrolate from Cistus Ladanifer, due to its balance and the synergistic effect of naturally contained substances there is no risk of skin irritation and sensitization, even with prolonged use (or use in the summer months).

EOSIDIN® (CITRUS UNSHIU EXTRACT)

It is an active natural immunomodulatory constituent that noticeably reduces the hypersensitivity (sensitivity) of the skin and simultaneously increases its barrier functions. This extract is also

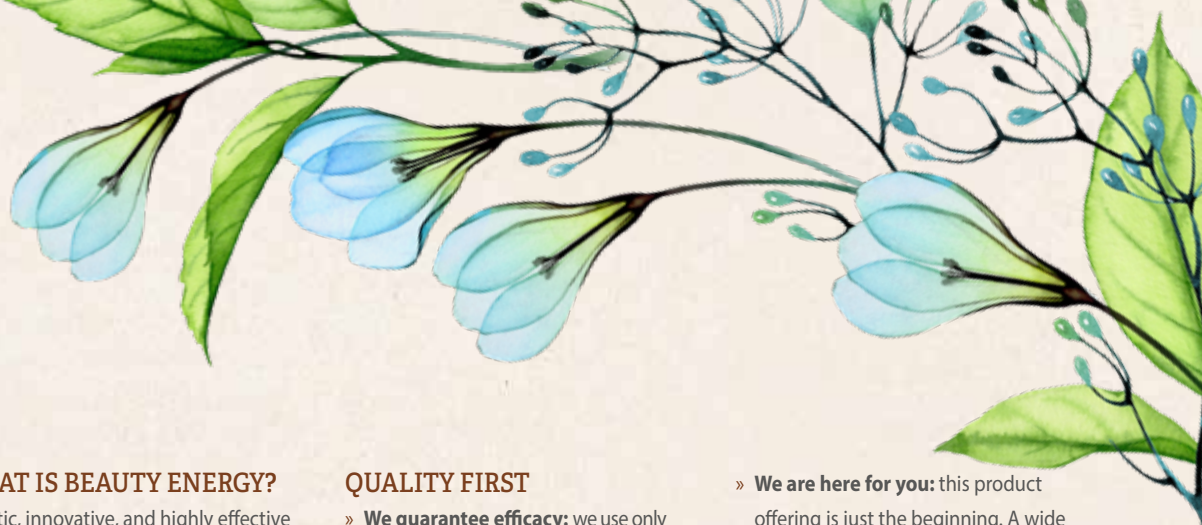

very suitable for sensitive skin prone to dermatitis, dryness, and atopic eczema. It increases skin hydration and is one of the “anti-pollution” active ingredients – those that eliminate the impact of polluted environments on dermal health.

GLYCERIN

It occurs naturally in the body and is added to Balance Water for its ability to bind water in the skin and its softening, smoothing properties.

PENTYLENE GLYCOL

Highly suitable for use in natural cosmetics and for sensitive skin. It exhibits natural antimicrobial properties, leaving skin hydrated and soft. It penetrates very well through the top layer of the skin and promotes the transport (penetration) of active ingredients to its deeper layers.
