

visage water

- » tertiary thermal water with damask rose hydrolate
- » skin cleansing, toning, and regeneration
- » freshness and vitality
- » soothing

A lotion in which the softness of the hydrolate of Damask rose is complemented by the power of naturally heated Tertiary thermal water full of Earth energy. It cleanses, tones, and effectively regenerates the skin, giving it a long-lasting freshness and vitality. It contains only natural perfume from rare essences of geranium and rose petals in aromatherapeutic quantities.

ACTIONS AND EFFECTS

- » effective morning and evening cosmetic cleansing and treatment of all skin types (second step after applying Visage Oil cleansing oil and before the application of other products)
- » gentle and fragrant skin toning and regeneration
- » skin soothing
- » the result is clean, toned, and refreshed skin
- » natural composition with essences and Tertiary thermal water from Podhájka

BENEFITS OF THE LOTION

The concepts of lotion and toner are often discussed and confused in cosmetics. In the case of flower waters, however, we get the benefit of both (the effects of a lotion and toner in one): we beautifully cleanse the skin while balancing its pH, which is important for maintaining vitality and health. This is an important intermediate step between cleansing the skin and applying other products (thus enhancing their effect). Visage Water can be applied to the skin even during warm weather by gently spraying it at any time of the day. This way we refresh not only the skin, but also the mind.

ACTIVE INGREDIENTS

HYDROLATE – DAMASK ROSE

A hydrolate of Damask rose petals represents the largest proportion of Visage Water. It has the same effects as essential oil, but its action is several times gentler. This hydrolate is one of the most valuable products, which cleanse and tone the skin well. Suitable for all skin types. It tones, refreshes, and soothes the skin. It is also very suitable for skin prone to redness and inflammation.

TERTIARY THERMAL WATER FROM PODHÁJSKA

This water's positive effect on the condition of eczema, rashes, and skin diseases complements the harmonizing effect of rose hydrolate. It contains a large amount of minerals and trace elements such

as calcium, magnesium, potassium, and sodium. Another advantage of thermal water from Podhájka is its antioxidant effect, which helps fight cell aging and prevents damage to cell membranes.

DAMASK ROSE ESSENTIAL OIL

Damask rose essential oil is one of the most precious and rarest of oils. Its rich and sweet scent is unmistakable. The effects on the skin are soothing, antibacterial, anti-inflammatory, and rejuvenating. Suitable for all skin types to help maintain natural beauty and femininity.

GERANIUM ESSENTIAL OIL

Geranium belongs to the group of so-called "female" essences: it opens the path to a natural experience of

womanhood and a return to oneself, to one's own strength. Its formula is suitable for all skin types, including irritated and red skin, which it helps to revitalize.

WHAT IS BEAUTY ENERGY?

Holistic, innovative, and highly effective natural cosmetics. Inspired by Eastern philosophy and Western science, it carries a unique energy and strength that can affect the deepest structures of our skin, giving it the necessary nourishment, starting renewal processes and restoring natural balance.

The principles of traditional Chinese medicine in perfect harmony with phytotherapy, aromatherapy, and modern biotechnology form a unique whole with a clinically proven and visible effect.

Beauty Energy delivers perfect care to women at every age and cycle of life. Individual products and their ranges are assembled in such a way that they intuitively and simply

combine and support each other with their effects. Women can take care of themselves lovingly and effectively, while still having enough time to live and create.
