

# Flora

---

- » sensitive/problematic skin
- » regulation of sebum production
- » support for pore cleansing
- » harmonization of the skin microbiome
- » protection against negative environmental influences
- » reduction of pigment spots

Flora combines the power of traditional phytotherapy, modern biotechnology, and aromatherapy, thanks to which it provides relief from inflammatory conditions, refines pores, harmonizes the skin microbiome, and reduces pigment spots. It helps to restore the overall health of the skin, balances sebum production, and improves the skin's hydration, vitality and healthy appearance. Thanks to its high content of a synergistic complex of herbs and active ingredients, it has anti-inflammatory and soothing effects. According to traditional Chinese medicine, its components and action make it a Wood element. It can be used as a day and night cream.

### ACTION AND EFFECTS

- » supporting a healthy skin microbiome
- » balancing sebum production
- » lightening of pigmentation, alleviation of acne and dermatitis
- » regeneration of skin damaged by negative environmental influences
- » deep hydration thanks to natural ingredients designed for sensitive skin

### BENEFITS OF FLORA CREAM

The extraordinarily complex action of Flora cream is based on traditionally proven, skin-beneficial herbs other ingredients, combined with modern patented bioactive ingredients. These effects are further enhanced by the aromatherapeutic perfuming with green tea essential oil, known for its astringent and anti-inflammatory effect on the skin.

## ACTIVE INGREDIENTS

### HERBAL EXTRACT

---

A synergistic herbal extract with anti-inflammatory, antibacterial, nourishing, and soothing effects. It softens pores and lightens pigment spots.

#### ALGAKTIV® Bio SKN

(specific extract of the alga *Chlorella vulgaris*)

» patented natural ingredient

---

It provides the skin with perfect nutrition in the form of suitable prebiotics. This helps to harmonize the skin microbiome, it reduces acne and regulates sebum production. It has been shown to support the restoration of the natural skin barrier and soothes the skin.

#### EOSIDIN®

(extract of *Citrus unshiu*)

» patented natural ingredient

---

It is an active natural immunomodulatory

ingredient that noticeably reduces skin hypersensitivity and in turn increases its barrier functions. It is also very suitable for sensitive skin prone to dermatitis, dryness, and atopic eczema. It increases skin hydration and is one of the “anti-pollution” active ingredients – those that eliminate the effects of environmental pollution on skin health.

### DRAGON’S BLOOD

---

The natural resin of the *Croton lechleri* tree has strong antiviral, antibacterial, antifungal, and toning properties, generally protecting the skin and increasing its elasticity.

### SUCCINIC ACID

---

It is a natural part of the skin, where it activates cellular metabolism (Krebs cycle). This speeds up the skin's regeneration processes and makes it more resistant to external factors, thus reducing the formation of wrinkles.

### HEMP OIL

---

It contains an ideal ratio of omega-3 and omega-6 unsaturated acids. It is very beneficial in the care of skin with a compromised skin barrier and sensitive skin (dry or oily), which it harmonizes.

#### BLACK SEED OIL (NIGELLA SATIVA)

---

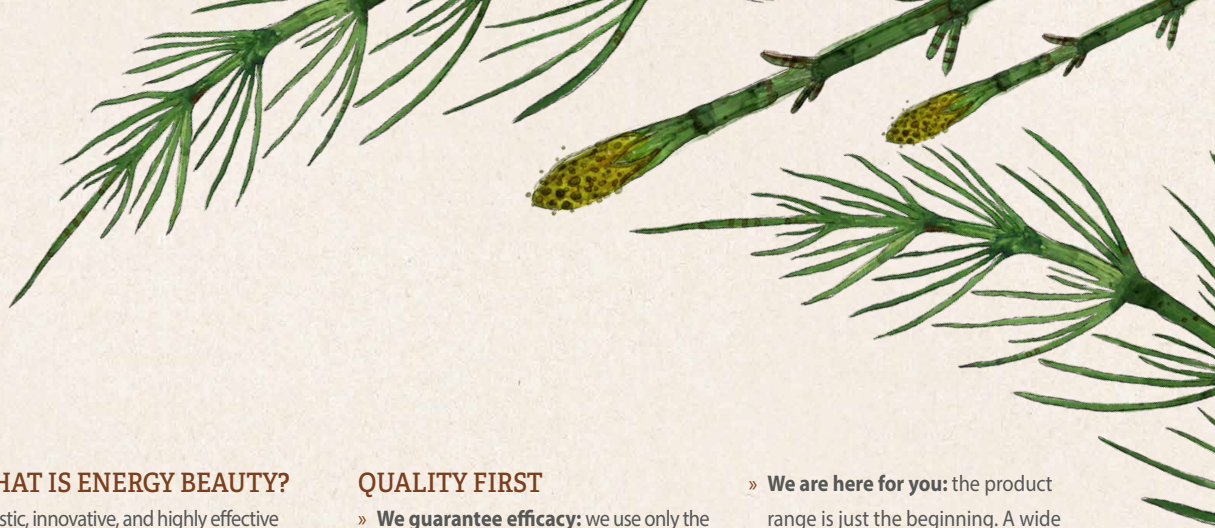

It contains omega-6 fatty acids (linoleic acid) and other ingredients, that contribute significantly to the protection, regeneration, and purification of inflamed skin. It is especially appreciated by oily and problematic skin prone to irritation.

### GREEN TEA ESSENTIAL OIL

---

Its fresh fragrance supports the delicately herbal tone of the Flora cream. It helps to harmonize the skin and a restless mind.

## WHAT IS ENERGY BEAUTY?
